

# BEACH

**C**  
once I went to the beach

**Am**  
and I dug a really really deep hole

**F**  
tunneled all the way under the sea

**G**  
to the other side

once I went to the beach  
and I brought a ball to kick around  
and I kicked it so far it traveled to the  
stars and stayed

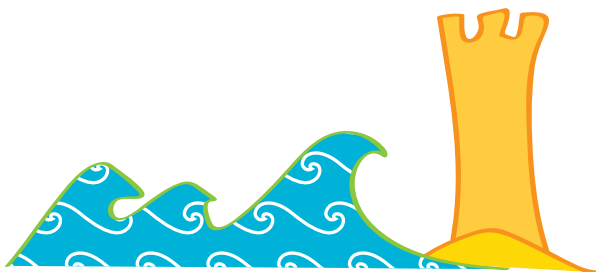

once I went to the beach  
and I built a castle in the sand  
and it grew so tall way up into the  
clouds and all around the world a  
hundred million times until it came  
back to me

**F G C B**  
I/we love the beach (na na na na na)

**F G C B**  
I/we love the beach (na na na na na)

**F G Am G**  
what's not to love about the beach

**F G C**  
I/we love everything about the beach

once I went to the beach  
and I ran a race in the sand  
oh I ran so far I made it all the way to Mexico

once I went to the beach  
and the big waves were crashin' down  
so I rode the biggest one all the way  
to the arctic ocean

once I went to the beach  
and somethin' shiny washed ashore  
it was an old glass bottle I popped off the cork  
shook it upside down and out came a message,  
a magical treasure map!

once I went to the beach  
and all my friends were there  
and we played all day 'til the sun was sinkin' low  
(where does it go?)

and as the sun went down  
we saw dolphins playin' in the surf  
they jumped so high they made it over the moon  
just like that cow  
(wow...la la la...woo woo woo)

it was a magical groovy night  
and we sang every song we knew  
and we did a little dance in the sand and it goes  
like this

you go side to side, front to back  
turn yourself around, & give a little clap clap  
rock your roll, swing your sway  
hula your hoop, & ride a really really big wave  
sashay to the right, sashay to the left  
sidle right on up to the front  
& walk it right on back  
jump into a star, & shine like a bright sunray  
make a little stomp stomp  
& shout a little hip hip hooray! 'cause  
WE LOVE THE BEACH!...
