

ROCK-A-BYE

A
rock-a-bye babe

A
in the green tree tops

A **G**
wind's gonna blow

D **E** **A**
cradle's gonna rock

A
but you're not gonna break

A **F#m**
and you're not gonna fall

D **E**
you're gonna journey far

D **E** **A**
grow up strong and tall

rock-a-bye babe
in the silver moonlight
she's gonna swaddle you
good and tight
you ask, how does the moon
know how to fly?
I say, you'll know, too
when it's your time to try

rock-a-bye babe
in the gold sunshine
he's gonna hold you safe
and treat you kind
and you'll never be lost
in the dark for long
if you listen close
for the sun's true love song

*come on home, come on home
everything is shining here
come on home, come on home
everything is growing here
come on home, come on home
everything you need is here*

rock-a-bye babe
in the ocean's womb
where there's always space
and always room
and there's always love
and always time
rock-a-bye babe
in this heart of mine
