well I traveled 'til I almost
reached the mountain top
'til the settin' sun told me
it was time to stop
then I found a little clearing
where the ground was flat
I set up my tent, started to unpack
got a powerful cravin' for
the ultimate campfire snack

so I dug a fire pit and gathered up some wood
little twigs and big logs to make it super good
and when the flames got goin' 'twas a sight to see
every color of the rainbow
red orange yellow white even violet blue and green

so I went off to search for a roasin' stick
found a branch a little bit thin a little bit thick
then I hunkered on down to where the coals were
burnin' sweet
and prepared to roast the perfect marshmallow
for the tastiest most spectacular campfire treat

well the moon was full
and the stars so bright
I didn't even need to use
my big flashlight
and when I snuggled down deep
in my sleepin' bag bed
I had visions of you-know-what
dancin' through my head
