Come here  
I'll give you a moon hug  
Hug you all day long  
And all night wide

Star kisses

Rain down around us

We're catchin' 'em here in our hearts

Now we're shinin' inside

Like the mountains climbing tall

Like the ocean waves that fall

Like the wind breathing through

That is how I love you

Like the sun huge and hot

Like the tiniest raindrop

Like the buds opening new

That is how I love you

So come here  
I'll give you a moon hug  
Hug you all day long  
And all night wide

While star kisses  
Rain down around us  
We're catchin' 'em here in our hearts  
Now we're shinin' inside

Like the roots diving down

Like the branches reaching 'round

Like the forest standing true

That is how I love you

Like the Earth's gentle turning

Like the stars' fiery burning

Like the moon round and blue

That is how I love you

So come here  
I'll give you a moon hug  
Hug you all day long  
And all night wide

While star kisses  
Rain down around us  
We're catchin' 'em here in our hearts  
Now we're shinin' inside

Come here, love like the mountains

Come here, love like the ocean

Come here, love like the raindrop

Come here, love like the tree roots

Come here, love like the stars

Come here love like the blue moon
