

# MOON HUG

**G C D G**  
come here, I'll give you a moon hug

**D G F D**  
hug you all day long, and all night wide

**G C D Em D**  
while star kisses rain down around us

**C F D**  
we're catchin' 'em here in our hearts

**C G**  
now we're shinin' inside

**B♭**  
like the mountains climbing tall

**C**  
like the ocean waves that fall

**D**  
like the wind breathing through

**D C B♭**  
that is how I love you

**B♭**  
like the sun huge and hot

**C**  
like the tiniest raindrop

**D**  
like the buds opening new

**D C B♭**  
that is how I love you

like the roots diving down  
like the branches reaching 'round  
like the forest standing true  
that is how I love you

like the earth's gentle turning  
like the stars' firey burning  
like the moon round and blue  
that is how I love you
